

Our Statement of Commitment

Relationships Australia Tasmania recognises that LGBTQIA+ communities are disproportionately affected by harmful attitudes, systems, prejudice, and abuse. We also recognise that we are part of a number of systems that have caused harm and excluded members of LGBTQIA+ communities. Relationships Australia Tasmania accepts our responsibility to challenge transphobia and homophobia within our communities and across the service sector. This serves to heal this past hurt, and model gender-inclusive practices within our own work and the broader sector.
